

West is best for customers using new container service

Published: Tuesday 4th May 2021

Bristol Port's container ship operations received a boost after a new gateway to Europe was established for customers that avoids congested South East ports.

A feeder service from Dunkirk in France to Royal Portbury Dock, which also enables deep sea feeder connectivity to the Far East, is part of the CMA-CGM offering, operated by Containerships.

James Stangroom, Commercial Manager, said: "We are delighted to welcome an additional service, and pleased in CMA-CGM's faith in the Port by bringing this new service to Portbury and we look forward to working with them to increase box numbers. This runs alongside Containerships long established service to and from Bilbao."
